TASTE THE PLACE

The **Spring Food School 2023** is scientifically grounded in the work within the “**Food, Place and Wellbeing**” project conducted by **Oxford Brookes University (UK)**, **Università dell’Insubria (IT)**, **Hertfordshire University (UK)**.

The project involved other Italian researchers belonging to **Università del Piemonte Orientale (IT)** and **Università di Genova (IT)**.

From this comparison among researchers it emerged the need to construct a **training course designed to provide methodological and interpretative tools** useful for analysing the **relationship between food festivals, well-being and cultural heritage**.

SCIENTIFIC COMMITTEE
